Table 1. Link to Paper Prototype

Usability Testing
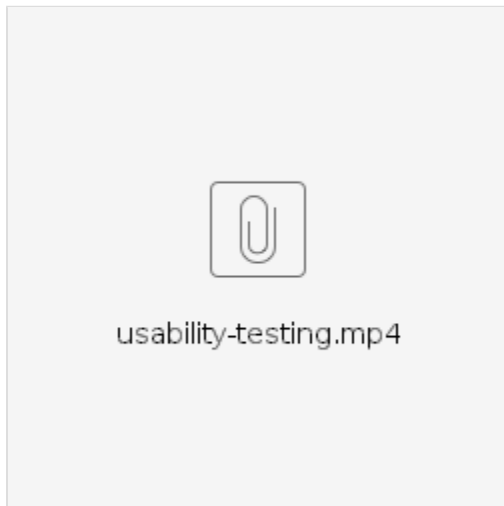

Video 1. Usability Testing Session with Client (20th April 2021)

Timestamp	Details	Relevant User Story ID
00:03	Supervisor logging in to the platform	19
00:16	Supervisor creating/adding a new quiz	12
01:36	Supervisor updating and/or deleting a previously created quiz	13, 14
06:35	Lived Experience Consultant (LEC) viewing the list of available quizzes	01
07:40	LEC selecting and undertaking a specific quiz	02
10:43	LEC reviewing feedback after completing the quiz	03

Table 2. Timestamp of Main Scenarios and User Stories Covered in Video 1

Functionality not included in this prototype

The low-fidelity prototype has several simplifications and is missing the following. Refer to the high-fidelity prototype for a more accurate depiction of functionality.

- Logged-in LECs can "view past feedback"
- Supervisors can "view shared feedback"
  - This includes any feedback that was shared anonymously
- LECs - sharing feedback
  - Can share without first saving/logging in
  - When sharing, can add multiple email addresses (not limited to 1)

- If an email address belongs to a Supervisor: the feedback is shared within the system
- If the email address does not belong to a Supervisor: the feedback is sent via email
- Supervisors - creating or updating quiz
    - Write an overview for the quiz, which is displayed when the quiz is selected
    - Determine the categories of feedback, which are based on the points allocated to each quiz option
- LECs & Supervisors - account management
